# ELITE ID CARD PRINTING EXPERIENCE

## PRESENTING THE NXTELITE ID CARD PRINTER

The NXTElite card printer was designed with performance and print quality in mind! This best-in-class desktop printer features record print speeds up to 280 cards per hour, allowing for maximum output. Even better, there's no need to sacrifice quality, as the printer boasts 300dpi high resolution printing, resulting in outsanding badge production quality with a lower cost per card supply cost.

### FEATURES

- Print speeds up to 280 cards/hour
- Larger 100-card output hopper
- Color matching option
- Field-upgradable options for encoding
- Optonal laminator for increased durability

### IDEAL FOR

- Student IDs
- Contractor Badges
- Employee Badges
- Access Control Cards
- Membership Cards and more

### SUPERIOR PRODUCTIVITY

The NXTElite printer gives you both an output capacity suitable for medium to large runs and high-quality printing. NXTElite and Its record printing speed of up to 280 cards per hour for single-sided printing and 170 cards per hour for single-sided printing, combined with its 100 or 200-card feeder, are the two significant assets of the NXTElite that allow it to reach a high level of productivity and autonomy.

### PROFESSIONAL PRINTING

NXTElite printers feature high-resolution printing mode (300dpi) coupled with its colorimetric profile as close to real-life colors as possible, allowing you to obtain a high-quality rendering on all your cards.

With all the possibilities it offers, the NXTElite card printer can meet your current needs. And those you have in the future, too. How? Thanks to its many features that can easily be added throughout its life: double-sided printing, 200-card feeder, encoders, lamination module, LCD panel. You can install these new options easily and from the comfort of your own premises.
