

# BENEFITS OF LEASING

## WHY CHOOSE FINANCING OVER CASH

Choosing to finance or lease your essential business equipment, instead of paying with cash, can unlock a whole host of benefits for your business. We have compiled a list of the top benefits your organization can achieve by using the finance and lease solutions offered by Amur.

### CONSERVE YOUR CAPITAL

Financing lets you keep capital free for investment or other business expenses instead of tying it up in fixed assets. Reinvesting the cash you conserve can bring real profits to your business and higher returns on investment.

### LOWER UPFRONT COSTS

Using an equipment finance company often requires less money to get started than traditional bank loans. Bank financing typically requires 20% down, while an independent lender may require one to two payments in advance (2-4%).

### PRESERVE EXISTING CREDIT LINES

Financing gives you a new source of credit for present and future needs, while your existing bank lines remain intact for other uses.

### APPLY ONLINE

Visit [aamscoco.net/financing](http://aamscoco.net/financing) to get information on your financing scenario.

### 100% FINANCING

Unlike with traditional bank loans, a finance company can let you finance the cost of the equipment, plus installation, maintenance, taxes, shipping charges, and even software.

### TAX BENEFITS

One of the tax advantages of leasing is a reduced cost of obtaining equipment. Depending on the type of lease you choose, you may be able to write off the entire monthly payment as an operating expense or capitalize the outlay.

### IT'S SIMPLE

AAMSCO has partnered with Amur to provide a most simple and fast financing solution with 24-48 hour approval and funding up to \$500,000, and zero money down. Payment options are available up to 60 months.
